SUMMARY

Senior Mobile Engineer with 4+ years of experience in architecture, development, and deployment of Android and Flutter applications. Key achievements include:

- Spearheaded development of mobile application modules used by 500,000+ students, improving app load times by 35%.
- Maintained exceptional application stability, delivering near-zero crash occurrences across diverse mobile platforms.
- Guided and trained a large cohort of junior developers in modern mobile frameworks, optimizing team velocity and **boosting time-to-market by 20%**.

PROFESSIONAL EXPERIENCE

Senior Flutter Developer | Aug 2024 – Present

Elkheta — Alexandria, Egypt

- Spearheaded the architectural overhaul of core feature modules for a market-leading EdTech platform, supporting a scaling user base of over 500,000 active students.
- Optimized application runtime performance and UI/UX responsiveness, reducing app cold-start times by 35% and enhancing the overall digital learning experience.
- Partnered with product management and UI/UX design teams to translate complex business requirements into high-retention features, contributing to a 20% increase in user engagement.

Senior Software Engineer | Mar 2023 – Mar 2026

MENT'ECH — Maadi, Egypt

- Architected and maintained robust cross-platform mobile solutions, achieving a 99.9% crash-free rate and exceeding operational benchmarks.
- Orchestrated the development of 5 enterprise-grade mobile application modules and integrated sophisticated REST/GraphQL APIs, reducing server-side latency by 25%.
- Elevated existing application security protocols and maintainability by instituting automated CI/CD pipelines and rigorous peer code reviews.
- Fostered Agile software development lifecycles, driving continuous code quality improvements across 3 distinct engineering disciplines.

Part-Time Flutter Developer | Sep 2023 – Jun 2024

Apes Smart Solutions — Elsheikh Zayed, Egypt

- Spearheaded the development of modular components for 3 production-grade Flutter apps, accelerating feature delivery by 20% and improving codebase maintainability.
- Refactored legacy application architectures to enhance performance, achieving a 32% reduction in production defects through increased unit test coverage.
- Optimized UI responsiveness and cross-platform fidelity for 15+ device form factors, ensuring seamless user experiences across iOS and Android ecosystems.

Flutter Instructor | Aug 2022 – Jun 2023

AMIT Learning — Maadi, Cairo, Egypt

- Instructed Mobile Programming diplomas, mentoring 50+ software engineering students in Dart programming logic and the Flutter development ecosystem.

Junior Flutter Developer | Sep 2022 – Jan 2023

Algoriza — Elsheikh Zayed, Egypt

- Directed complex codebase migrations, upgrading legacy applications' Flutter SDKs to recent stable releases with 0% system downtime.
- Instituted strict code quality controls, systematically identifying and resolving performance bottlenecks across 4 critical application layers.

Intern Flutter Developer | Jun 2022 – Oct 2022

Algoriza — Elsheikh Zayed, Egypt

- Applied advanced methodologies for developing multi-layered Flutter architectures, improving overall UI responsiveness by 15%.

Junior Android & Flutter Developer | Dec 2021 – Jun 2022

Magdsoft — Nasr City, Egypt

- **Constructed** and deployed 10 critical functional modules, reducing integration complexity and shortening the overall deployment lifecycle.
- Collaborated with UI/UX designers to ship secure mobile solutions, decreasing post-release bug reports by 15% through standardized code reviews.

TECHNICAL SKILLS

- **Programming Languages:** Dart, Kotlin, Java, JavaScript, TypeScript.
- **Frameworks & UI:** Flutter, Android Native SDK, Jetpack Compose, React Native.
- **Architecture & Patterns:** MVVM, MVC, MVP, SOLID Principles, Modular Design.
- **State Management:** Bloc, Riverpod, GetX, Provider, MobX.
- **APIs & Cloud:** Firebase, Retrofit, Volley, Dio, GraphQL, RESTful APIs.
- **Local Storage:** Room, SQLite, Hive, SharedPreferences.
- **DevOps & Tools:** Git, GitHub, GitLab, Azure DevOps, Jira, CI/CD Pipelines.

- **Testing & Quality:** Unit Testing, Widget Testing, Integration Testing, Automated Test Scripts.
- **App Publishing:** Google Play Store, Apple App Store, Huawei AppGallery.
- **Methodologies:** RxJava, Coroutines, get_it, App Routing, Agile/Scrum.

PROJECTS

- **Elkheta:** Created an educational mobile app for primary to secondary students, integrating interactive video lessons and exam simulations to enhance learning outcomes for 500,000+ users.
- **BenefEx:** Programmed a smartphone application enabling corporate employees and individual users to access exclusive promotions across a network of 50+ merchants.
- **eMart: Engineered** a B2B marketplace connecting micro and SME enterprises, streamlining inventory ordering within a centralized ecosystem and onboarding 80+ merchants in the first year of launch.
- **HPadel:** Architected a padel court booking application designed to provide efficient and real-time court reservations and community interactions for regional sports facilities.
- **GeView:** Built an enterprise-grade mobile platform for GSK Healthcare Professionals, achieving a 99% adoption rate across targeted clinics while delivering real-time medical trends and smart diagnostic tools via enterprise distribution channels.
- **Views - Real Estate:** Crafted a property listing mobile application for a global audience, simplifying the search and transaction process for property owners and real estate agents.

EDUCATION

Bachelor's Degree in Computer Science | Sep 2017 – Aug 2021

Higher Technological Institute — Tenth Of Ramadan, Egypt

Mobile Applications Development Diploma | Nov 2020 – Jan 2021

Ministry of Communications and Information Technology (YAT) — Maadi, Cairo, Egypt

CERTIFICATIONS

- Technology Internship Experience UK — Bright Network | Aug 2020.
- Android Developer Track — 1 Million Arab Coders Initiative, Udacity | Feb 2019.

VOLUNTEERING

- Academic & Media Team Member — HTI CS Student Union | Feb 2019 – Aug 2021.
